HEALTHCARE

The global pharmaceutical and medical technology industry is undergoing radical transformation. Living longer lives, the increasing availability of health care, exploding costs, globalisation of markets and the shortage of skilled employees in this area have created the need for a more efficient system. Success today flows to the company that establishes a management with proprietary control over a broad, fast moving, competitive environment.

PERSPECTIVE consultants offer an in-depth understanding of the diverse qualifications vital to that market. Some of the largest health care companies in the world along with leading and up-and-coming Medical Technology and Biotechnology firms are among our clients. Successful placements include Head of Research, Country Managers, Global Head of Quality Control, VP Marketing & Key Account Managers, European Supply Chain Manager, Sr. Manufacturing and Engineering Executives, Sales Directors and Sr. Medical Directors.
